

Hours of Service Integration

Keeping up with a driver's current duty status and remaining hours is a key component for fleet managers looking to assign loads and ensure Hours of Service (HOS) compliance. However, this data is often located in separate data systems, making it difficult to keep track of all the information involved in daily fleet routing.

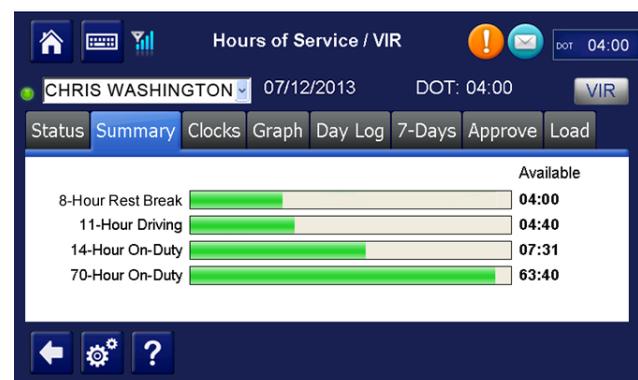

Hours of Service Integration provides the ability to regularly retrieve certain data points, like a driver's current duty status and remaining hours, from the HOS system into your local dispatch system, making information easily available when you need it. Professional Services will install and configure the programs that execute web service calls at timed intervals to convey current duty status information. HOS Integration instantly produces the information you need to ensure compliance, such as calculations for cumulative on-duty hours and monitoring of hours gained at midnight. With real-time duty status information on everything from total driving hours, on-duty hours, and remaining driver time available, fleets can increase productivity and efficiency by easily viewing driver availability.

HOS Integration allows fleets to:

- **Eliminate** the need for drivers and/or managers to calculate available time
- **Increase** productivity of dispatchers, drivers and managers
- **Improve** driver DOT compliance
- **Eliminate** the need to physically log into different systems to retrieve duty status and available hours
- **Support** the ability to match drivers with load assignments that meet customer service requirements.

Log info is available in a grid graph view or detailed view.

Driver can quickly see hours remaining on each clock.

Getting More from Your Technology Investment

The Omnitracs Alliance Program facilitates integration of Omnitracs solutions with other leading companies that provide complementary technologies and services. This program taps into the power of integration in order to best meet the needs of our shared customers.

We offer Omnitracs Professional Services to all sizes of fleets to help you utilize our applications and our partners' applications in the most efficient way. Our assessment, integration, custom development and programming, training, business intelligence, and predictive modeling services deliver practical solutions. This critical information increases your productivity and efficiency, so you can both grow and differentiate your business.

The Omnitracs Services Portal provides access to a suite of web-based fleet management applications, including satellite mapping. Data from the Services Portal can be integrated into your existing enterprise systems.

Why Omnitracs

Whether you need a standard, out-of-the-box integration or a customized solution that fits your specific requirements, Omnitracs offers multiple options that help you get the most out of our award winning applications. Contact your account representative, or visit www.omnitracs.com, to learn how our Professional Services can help your fleet reduce costs, increase profitability, and stay competitive.

About Omnitracs, LLC

Omnitracs, LLC is a global pioneer of fleet management, routing and predictive analytics solutions for private and for-hire fleets. Omnitracs' nearly 1,000 employees deliver software-as-a-service-based solutions to help more than 50,000 private and for-hire fleet customers manage nearly 1,500,000 mobile assets in more than 70 countries. The company pioneered the use of commercial vehicle telematics over 25 years ago and serves today as a powerhouse of innovative, intuitive technologies. Omnitracs transforms the transportation industry through technology and insight, featuring best-in-class solutions for compliance, safety and security, productivity, telematics and tracking, transportation management (TMS), planning and delivery, data and analytics, and professional services.

Learn how you can use our applications, platforms, and services to reduce costs, increase profitability, and stay competitive. Visit www.omnitracs.com and let us show you how you can save time and money.
