

Omnitracs Dispatch

Ensure accurate, on-time deliveries and improve driver accountability and customer service through an integrated dispatching and trip management solution.

Solution Highlights

GPS-enabled driver location and activity monitoring

Real-time arrival and departure information

Intuitive user interfaces for drivers and back-office teams

Trip Management Beyond Routing

Evaluate current route plans in real time and notify drivers of changes to reduce your number of customer-service inquiries.

The screenshot displays the Omnitracs Dispatch software interface. On the left, a sidebar shows the session date as 2/4/2015 and lists several stops with their departure times and addresses. The main area features a map with a highlighted route and a timeline at the bottom.
