

5 Five reasons commercial drivers in Canada WILL LOVE ELDs

IMPROVED SAFETY

Electronic Logging Devices (ELDs) significantly reduce hazardous accidents brought on by driver fatigue. Internationally, **FATIGUE** is associated with **15% TO 20%** of all **COMMERCIAL VEHICLE CRASHES**.

TIME SAVINGS

Drivers can expect to **SAVE** approximately **18 HOURS PER YEAR** previously spent maintaining daily logs.

BETTER PAY

ELDs in Canada are anticipated to **SAVE THE INDUSTRY**, including motor carriers and drivers, **OVER \$380 MILLION**.

SIMPLIFIED PAPERWORK

With ELDs, drivers can submit daily logs electronically, which **SAVES EVERY DRIVER OVER TWO HOURS ANNUALLY**. Electronic submissions can also **SAVE BACK-OFFICE TEAMS 14 HOURS** of filing time per year.

SMALL-BUSINESS FRIENDLY

Fleets of all sizes will benefit from ELDs. **DRIVERS** who work for small businesses, which make up over 90% of all motor carriers, can expect to **SAVE \$963 A YEAR**.

Read [Canada Gazette, Part II, Volume 153, Number 12](#) for additional statistics on the Canadian ELD Mandate. Learn more about the benefits of ELD compliance in the U.S. and Canada. Visit omnitrac.com/everythingeld or call **+1 (800) 348-7227**.
